SUBJECT – DEFINITION OF A COMPETITOR

The Archery Australia Board met on the weekend of the 5th and 6th July 2008. A question was raised as to what constitutes a competitor - Someone who enters a tournament or someone who competes (shoots) in the tournament?

The Archery Australia Board has determined that a competitor as defined in the Archery Australia Shooting Rules shall mean ***“An archer who has entered the event concerned and shot a minimum of one arrow in a scoring end”***.
